

# Breast MRI is currently the most accurate imaging test in the detection and treatment of breast cancer

If your doctor suggests that you should have an urgent Breast MRI, consider having it done at the **Ville Marie Breast MRI Center**, Canada's only Breast-Dedicated MRI Center equipped with the best available breast MRI technology.

If needed, you could also benefit from the multidisciplinary expertise of the Ville Marie team of physicians who have quick on-site access to all other pertinent imaging technology, including nuclear and PET-CT scanning, and are able to perform an ultrasound, stereotaxic/digital mammography or an MRI-guided breast biopsy. The **Ville Marie Breast Pathology Service** now offers immediate expert preliminary breast biopsy results, with the final report available within three days
